

CUNNINGHAM UTILITY DISTRICT

REQUEST FOR FEASIBILITY, HYDRAULIC STUDY AND/OR ENGINEERS ESTIMATED COST OF CONSTRUCTION

I, the undersigned developer and/or owner, with authority to do so, do hereby request that the Management and Engineering staff of the Cunningham Utility District conduct a feasibility and/or hydraulic study of the property described below, and prepare an Engineer's estimated cost of construction for said development and/or improvements if applicable:

ADDRESS: _____

My signature below indicates that I understand that the payment for said services is a minimum of **\$1,000.00**. **This payment is non-refundable.** However, the payment is transferable towards the fees paid to the District under the Developer Agreement. Said payment shall be applied as a credit towards the total amount due for engineering, should a subsequent contract be entered into between the District and the undersigned developer and/or owner for the development and/or improvements to the above described property.

The undersigned developer and/or owner understands that this request in no way requires the Cunningham Utility District to supply potable water to the property as described above. The request herein is limited to the feasibility of supplying water to the area and/or a hydraulic study indicating the effect of the demand that this development and/or improvement will have on the existing system and then if appropriate, an Engineer's estimated cost of construction.

This Request is entered into this ____ day of _____, 20____ between the undersigned developer and/or owner and the Cunningham Utility District.

Developer/Owner (printed)
