

CUNNINGHAM UTILITY DISTRICT

**REQUEST FOR FEASIBILITY, HYDRAULIC STUDY AND/OR
ENGINEERS ESTIMATED COST OF CONSTRUCTION**

I, the undersigned developer and/or owner, do hereby request that the Management and Engineering staff of the Cunningham Utility District conduct a feasibility and/or hydraulic study, of the property described below, and prepare an Engineer’s estimated cost of construction for said development and/or improvements if applicable;

My signature below indicates that I understand that the payment for said services is a minimum of **\$1,500.00**. **This payment is non-refundable.** However, the payment is transferable towards the fees paid to the District under the Developers Policy. Said payment shall be applied as a credit against the total amount due for engineering, should a contract be entered into between the District and myself for the development and/or improvements to the above described property.

I understand that this request in no way indicates an agreement and/or contract between myself and the Cunningham Utility District to supply potable water to the property as described above. This request is limited to the feasibility of supplying water to the area, a hydraulic study indicating the effect of the demand that this development and/or improvement will have on the existing system and then if appropriate, an Engineer’s estimated cost of construction.

This Request is entered into this ____ day of _____, 20____ between:

Developer/Owner (printed)
